

# Curtain Eyelets

DTP'S range of curtain eyelets is amongst the best to be found anywhere. The standard range consists of five sizes and 9 colours. We are sure that there will be something in the standard range to suit most tastes. Our range of sizes is designed specifically to suit a wide range of curtain pole sizes.

Our standard eyelet sizes are as follows;  
66mm hole diameter  
50mm hole diameter  
40mm hole diameter  
30mm hole diameter  
25mm hole diameter

For that something a little different we have 5 further colours. Two specially engraved designs for the 40mm size eyelet are also available.

We can supply tools and machinery to suit our entire range of curtain eyelets, usually from stock.

We also offer an in house eyeleting service. Our eyelet setting section offers customers the eyelet heading of their choice without the need to purchase specialist machinery.

If you are considering an eyelet header for your curtain then please contact one of our skilled sales advisors who will be happy to supply samples and discuss the options available.

# Special Finishes

As well as the standard finishes, our round curtain eyelets are available in a number of special finishes and designs. Alongside the special finishes shown, we can supply painted eyelets.

Please check with our Customer Service Department for stock and availability.

# Eyeleting Machinery

We stock a wide range of eyelet inserting machinery, from automatic and semi automatic, pneumatic machinery through to hand closing tools. Our staff will be happy to advise on applications and suitability.

# DTP Supplies

**Eyelets and Fasteners to all trades**
