

Curtain Eyelet Setting Service

Our in house Curtain Eyelet Setting Service is the quick and easy way for you to get professional results without the need to purchase setting machinery and training your staff.

Simply send us your made up curtains with an indication of the eyelet size and finish you require and the number of eyelets per curtain, and we will do the rest.

We can eyelet any number of curtains, no job is too big or too small. We can also set eyelets into samples, prototypes and small production runs.

Our knowledgeable staff can advise you on suitability and how many eyelets you will need for each curtain. They can also send you samples of finishes.

Upon receipt, we will measure the position of each eyelet.

The hole is punched and the eyelets set into the curtains.

The finished curtains are checked and securely packaged.

The curtains are despatched to you the same day they are finished, either by post or our own fleet of delivery vans.

Make a call and find out how easy it is
