StormFix

Ultra Secure Banner Fixing

The **StormFix** fastener is a new and incredibly strong method of fixing banners to frames. **StormFix** is made from high quality 8mm braided multi core bungee. For a fast and secure way of fitting banners into frames, give **StormFix** a try, you will not be disappointed!

- A super strong banner fixing tested to 100Kgs.
- **StormFix** allows the banner to be tensioned VERY close to the frame or tube.
- High quality 8mm multi core bungee with high tenacity PP braiding.
- Bungee available in black, white or silver.
- End pieces available in black white or silver.
- **StormFix** means less possibility of fraying of bungee and no corrosion at the point of fastening.
- **StormFix** can be pre-inserted into eyelet for fast mounting of banners.
- **RESULT**: A fast, extremely strong method of fastening banners to frames or tubing.
